

Sheridan Tranter

Your Local Independent
Candidate

for **Hartlebury**

Wychavon District Council Elections

"I have lived in Hartlebury village for 29 years and I am passionate about helping this and the wider community. I believe strongly that the District and Parish Councils need people who can deliver on their promises and who are prepared to listen and take action on behalf of their communities. I am determined that Hartlebury's voice should be heard and I will be there to work on your behalf. We have so much to look after and protect in this village – it's time we started doing just that."

YOUR CONCERNS ARE MY CONCERNS – TOGETHER WE CAN MAKE A DIFFERENCE TO OUR COMMUNITY

If elected, I promise to bring energy, commitment, and drive to the role, to listen to the views of the community, and to always strive to protect and improve our local area. You **deserve** a District Councillor who will commit to attending **all** Council meetings and be there to challenge and represent this community. **Far too little has been achieved in the last four years, despite lots of empty promises – it is time for change.**

You have an opportunity to bring about changes by voting in the forthcoming elections and I urge you to do just that.

**PLEASE VOTE FOR ME IN THE DISTRICT
ELECTIONS ON 7TH MAY 2015**

For your Local District Councillor

Why an independent

- I feel strongly that these elections are not about party politics – they are about the people within the community, and not political agendas. It is you that matters and local issues affect us all. Remember - my voice is your voice.

Why me?

- Because I care about this community.
- I have attended every Parish Council meeting as a resident and am now elected as a Parish Councillor.
- I am an associate Governor at Hartlebury Primary School, and have been an active member of the groups fighting against the Hartlebury Incinerator.
- I believe that you can only change things if you take an active interest in what is happening within the community. I have been doing that for many years and I am confident that I can make a significant contribution to the future of the village and hamlets of Hartlebury.

What are my priorities?

- To listen to what the community wants and engage with you to get a clear idea of what you want for your community.
- To protect all aspects of the heritage within our Parish boundary. Far too much has already been lost.
- To ensure that any large scale developments are scrutinised and challenged to ensure they are sympathetic to the community's environment.
- To improve road safety, and to liaise more effectively with local police to keep our community safe.
- To compile the new Parish Plan - this plan sets out what the Parish wants to achieve over the next four years. It also means we can apply for funding from various organisations. Without this plan, we will continue to lose valuable funding - monies which can be used to improve our community.
- To continue to fight the effects of the Hartlebury Incinerator - the environment and health of our community and future generations is vital. We must not give up.
